DST Health Solutions Receives URAC Health Utilization Management Accreditation

Certification Recognizes Industry-Standard Medical Management Processes

BIRMINGHAM, Ala., Sept. 16, 2008—DST Health Solutions' Medical Services Department has been awarded Health Utilization Management Accreditation from URAC. The department was granted accreditation through 2010. URAC is a Washington, DC-based healthcare accrediting organization that establishes quality standards for the healthcare industry.

URAC's Health Utilization Management Review Standards ensure that organizations follow review processes that are clinically sound and respect patients' and providers' rights while giving payors reasonable guidelines.

"We applaud DST Health Solutions on achieving URAC Health Utilization Management Accreditation," said Alan P. Spielman, URAC president and CEO. "In today's health care market, URAC accreditation provides a mark of distinction for organizations to demonstrate their commitment to quality healthcare."

The Medical Services Department of DST Health Solutions provides health plans throughout the United States with medical management services, such as pre-certification, case management, prospective care management and inpatient concurrent review.

"By successfully completing this accreditation process, DST Health Solutions assures our clients, members and providers that we comply with URAC's medical management quality standards," said Steve Sabino, president of DST Health Solutions.

URAC, an independent, nonprofit organization, is well known as a leader in promoting healthcare quality through its accreditation and certification programs. URAC offers a wide range of quality benchmarking programs and services that keep pace with the rapid changes in the healthcare system, and provide a symbol of excellence for organizations to validate their commitment to quality and accountability. Through its broad-based governance structure and an inclusive standards development process, URAC ensures that all stakeholders are represented in establishing meaningful quality measures for the entire healthcare industry.
